

Professional Raw Video Footage Editing

Do you possess untapped raw video footage stored away, unseen, and untouched? Now is the time to transform these moments into captivating videos that leave a lasting impression. Whether for personal memories or confidential company records, your digitised videos deserve to be not just watchable but also deliverable.

Experience a unique blend of AI assistance and 100% human touch with Cyrius. Our team meticulously reviews every second of your video, making director's notes and creative decisions for a visually stunning result. Your edited videos will be delivered in multiple formats, ensuring versatility for all delivery, and viewing methods. From Instagram and Facebook to YouTube, TikTok, Vimeo, or private MP4 uploads, we cater to diverse platforms, making your videos shine across various channels. Let Cyrius breathe life into your existing footage, or merge with new footage to create a visual masterpiece that captivates your audience in every format.

Key areas covered

Video Quality:

Maintain consistent resolution and quality throughout the editing process, adhering to platform recommendations.

Smooth Transitions:

Enhance the viewing experience with seamless transitions and editing techniques between clips.

Colour Correction:

Ensure consistent colour correction and grading for a cohesive visual narrative.

Audio Quality:

Address issues related to background noise, inconsistent volume levels, and synchronise audio with video.

Project Collaboration:

Ensure effective communication and collaboration in team editing projects, involving 3rd parties or internal resources.

Legal Considerations:

Advice on copyright issues and licensing agreements related to video content.

What's included

B-Roll Integration:

Skillfully incorporating B-roll for added depth and context, we use existing footage or relevant slides and stock imagery to enrich your narrative, keeping the audience engaged.

Advanced Audio Fixes:

Addressing the vital aspect of audio quality, our team adeptly handles audio normalisation, equalisation, and noise reduction to ensure your video's sound is clear and impactful.

Colour Grading and Correction:

Bringing cinematic quality to your videos, we perform professional colour grading and correction, enhancing visual appeal and maintaining colour consistency throughout the footage.

Dynamic Editing Techniques:

Our editors utilise a range of dynamic techniques to maintain pacing and rhythm, keeping viewers engaged from the start to the finish of your video.

Creative Storytelling:

Leveraging AI analysis and human creativity, we craft compelling narratives that bring out the essence of your footage.
